ABOUT ME

As a dedicated front-end based full-stack web developer, I specialize in React.js and Next.js. As the sole front-end developer on a dynamic team, I manage real-time data processing via WebSocket connections and optimize application performance. I am also the co-founder of OpenConnect, enhancing connectivity through innovative solutions.

WORK EXPERIENCE

[01/01/2024 – Current]

Co-Founder & CTO

OpenConnect

City: Baku | **Country**: Azerbaijan

OpenConnect is a platform that provides software tools for ecosystem players, such as Startups, Accelerators, VCs, and angels. OpenConnect became the acceleration startup of LTC Innovation. I managed the development team of OpenConnect and took part in administrative decision-making: I applied project management methods and led the product to the beta phase.

[07/02/2024 – Current]

Front-end Developer

Glorri

City: Delaware | **Country**: United States

Glorri is one of the top startups in Azerbaijan, which is aiming to revolutionize the recruitment process by providing ATS tools. Refactoring the landing page of Glorri and working on the new Glorri Talents project, implementing designs, and functionalities and enhancing company vision.

[25/04/2024 – Current]

Full-stack Developer

Crable

City: Baku | **Country**: Azerbaijan

Crable is a marketing tool that aims to provide enhanced site reports for customers about their website's status, backlinks, issues, etc. I created a full-functional Front-end of Crable by implementing the latest web technologies.
